Relevant  
Resolution  
**MSC.353(92)**

The purpose of this Technical Notice is to provide information and guidance concerning amendments of the International Safety Management Code (ISM) which **come into force on 1 January 2015**.

The changes, as detailed in [Resolution MSC.353\(92\)](#) – “*Amendments to the International Management Code for the Safe Operation of Ships and for Pollution Prevention (International Safety Management (ISM) Code)*”, concern **manning levels** on vessels and that the company should periodically **verify whether all those undertaking delegated ISM-related tasks are acting in conformity** with the Company’s responsibilities under the Code.

These amendments are **essentially clarifications** of what has been best practice for many years.

The following amendments are made:

#### PART A –IMPLEMENTATION

#### 6. RESOURCES AND PERSONNEL

In order to clarify that the code covers all shipboard operations the existing text of paragraph 6.2 is replaced with the following:

*"6.2 The Company should ensure that each ship is:*

*.1 manned with qualified, certificated and medically fit seafarers in accordance with national and international requirements; and*

*.2 appropriately manned in order to encompass all aspects of maintaining safe operations on board (Refer to the Principles of minimum safe manning, adopted by the Organization by resolution A.1047(27))*

## 12. COMPANY VERIFICATION, REVIEW AND EVALUATION

In order to clarify that the Company also has responsibility to ensure that others delegated ISM related tasks conform with the code the following new paragraph 12.2 is inserted after existing paragraph 12.1 and the existing paragraphs 12.2 to 12.6 are renumbered as 12.3 to 12.7:

*"12.2 The Company should periodically verify whether all those undertaking delegated ISM-related tasks are acting in conformity with the Company's responsibilities under the Code."*

Seven footnotes have been added to the text in Part A for reference and guidance purposes, and additional text has been added to the Code's foreword regarding use of the material referred to in the footnotes.

1. In paragraph 1.1.10, the following footnote is added after the words "Major non-conformity":
